

**10TH WORKSHOP ON COMPUTATIONAL APPROACHES FOR SUBJECTIVITY,
SENTIMENT AND SOCIAL MEDIA ANALYSIS
(WASSA 2019)
JUNE 6, 2019**

***COLLOCATED WITH THE NAACL 2019 CONFERENCE IN MINNEAPOLIS, U.S.A.**

<https://wt-public.emm4u.eu/wassa2019/index.htm>

CALL FOR PAPERS

The aim of the 10th Workshop on Computational Approaches to Subjectivity, Sentiment and Social Media Analysis (WASSA 2019) is to continue the line of the previous editions, bringing together researchers in Computational Linguistics working on Subjectivity and Sentiment Analysis and researchers working on interdisciplinary aspects of affect computation from text. Additionally, starting with WASSA 2013, we extended the focus to Social Media phenomena and the impact of affect-related phenomena in this context. In this new edition, we would like to encourage the submission of research and demo papers including, but not restricted to the following topics related to subjectivity and sentiment analysis.

TOPICS OF INTEREST

We encourage the submission of long papers including novel research contributions, system demonstration papers, negative results, and opinion pieces including, not restricted to the following topics, however, all related to subjectivity, sentiment, emotion, opinion mining and social media analysis:

- Methods for classification of sentiment, emotion, polarity, subjectivity, and for social media analysis.
- Automatic and semi-automatic methods for the creation of lexical semantic resources, corpora, and annotations.
- Novel resources across all languages and domains.
- Opinion retrieval, extraction, categorization, aggregation and summarization.
- Ethics in data sets and algorithms
- Trend detection
- Data linking
- Reputation management and detection
- Fine-grained and coarse-grained analysis, including target-level, aspect-level prediction, and role-labeling.
- Transfer and adaptation across domains, topics and genre.
- Ambiguity and disambiguation
- Pragmatic analysis
- Fake news and hate speech
- Semantic web technologies
- Intrinsic and extrinsic evaluation
- Stance and argumentation and the interaction with sentiment
- Applications
- Theories and relations to other fields, for instance psychology, neuropsychology, cognitive sciences
- Visualization

SUBMISSION

At WASSA 2019, we will accept long paper submissions, which consist of eight (8) pages of content, with two additional pages for references. Papers may be presented orally or as a poster. The decision on the presentation is not based on the quality of the submission, but on the PC's recommendation relating to the most suitable presentation method.

Reviewing for WASSA 2019 will be **blind**: reviewers will not be presented with the identity of paper authors. Authors should avoid writing anything that makes their identity obvious in the text.

Submissions should be original, and in particular should not previously have been formally published.

To submit a paper, please access the WASSA 2019 submission link:

<https://www.softconf.com/naacl2019/wassa/>

IMPORTANT DATES

Submission deadline: March 13, 2019

Notification of acceptance: March 30, 2019

Camera-ready deadline: April 7, 2019

Workshop date: June 6, 2019, collocated with NAACL 2019
